

# Pocket Silk

## LUBRICATION RANGE

Polish and maintenance tool

A high performance silicon with powerful additives which will quickly shine surfaces and provide fantastic lubrication.

### What is Pocket Silk?

Pocket Silk is an amazing, multipurpose spray that can stop squeaking hinges, polish leather and provide a non-stick, water repellent surface for a range of household, industrial and commercial purposes.

Pocket Silk can be used as a lubricant to prevent sticking hinges, locks, bolts and rubber parts.

Pocket Silk is also useful on leather, wood, rubber and plastic to bring a stunning professional finish to cleaning.

Pocket Silk will provide a protective shield for easy removal of food, paint, adhesives and more.

A range of varied uses makes Pocket Silk indispensable.

### How does Pocket Silk work?

Pocket Silk is a completely non-toxic, colourless, odourless product formulated to withstand temperatures up to 300°C.

Pocket Silk provides a range of uses, as a release agent and lubricant it solves sticking hinges and machinery parts. Gives leather, wood, rubber and plastic a high shine finish.

Used to create protective non-stick surfaces; it ensures easy removal of food, paints, adhesives and inks.

### Key features and benefits of Pocket Silk?

- Pocket Silk is ideal for a multitude of tasks.
- Totally safe – non-toxic formulation.
- Colourless and odourless - Pocket Silk won't stain.
- High temperature resistance of up to 300°C.
- Can be used with an extension tube for hinge or machinery lubrication and as a spray for release and polishing tasks.

### How to get the best results?

When using as a polish or water repellent, simply spray onto surface and polish with a clean dry cloth to create a high gloss finish.

When using as a lubricant or release agent, use the extension tube to direct the product to the correct areas.

Note. Take care not to allow over spray to create a slippery floor surface.

Do not use in paint and body shops as residues will effect the paint process.
