Blue Jet Degreaser

Water based heavy-duty degreaser

A safe to use degreaser that gives fantastic results.

What is Blue Jet Degreaser?

Blue Jet Degreaser gives you the power of a heavy-duty degreaser without the need for harmful solvents. Blue Jet Degreaser's water based formula can be used on engines, wiring, plastics, paintwork, concrete and many more surfaces to remove even the most ground in grease and dirt. Simply spray on, agitate, jet or rinse off and area is left completely free of grease, even heavy soiling is quickly eliminated.

How does Blue Jet Degreaser work?

On contact Blue Jet Degreaser immediately starts breaking down grease using a unique water based formulation. Even the most ground in grease and grime can be removed by simply agitating the Blue Jet formula. Rinse or jet off Blue Jet Degreaser from the surface to reveal a spotlessly grease free surface without the use of solvents.
