Vehicle Detergent Wash

Vehicle cleaner, degreaser and traffic film remover

A powerful vehicle cleaner that can be used with pressure washers to break down dirt, oil and traffic film quickly.

What is Vehicle Detergent Wash?

Vehicle Detergent Wash is a powerful blend of sequestrants and detergents to give rapid cleaning of all types of vehicles including buses, HGV's, vans and cars.

How does Vehicle Detergent Wash work?

Vehicle Detergent Wash can be used through automatic equipment, pressure washers as well as for hand washing vehicles. The formulation is suitable for hot or cold washing. However, for very oily or greasy surfaces, hot water use is recommended. Vehicle Detergent Wash has been developed to work with hard or soft water. When used through pressure washers, it will not scale up the heater tubes.

Product Information

Always read instructions carefully before use.

Important - When using to clean metallic finishes, pre- test in an unobtrusive place in case they are alkali sensitive.

Do not allow product to dry on glass, always rinse immediately with water, otherwise staining may occur.

This product can remove wax polish from vehicle surfaces which may need to be re-applied after cleaning.

Key features and benefits of Vehicle Detergent Wash

- Concentrated for use at up to 500:1
- Works with hard or soft water
- Biodegradable
- Hot or cold use
- Suspends and removes dirt and road film

How to get the best results

Pressure Washers - Use at an end dilution of up to 500:1 with water. Where necessary can be pre-diluted before use in the pressure washer. When cleaning very oily surfaces (eg. engines, chassis) they can be pretreated with a 10:1 solution and then cleaned off using a greater diluted product or water pressures at 70 - 80 bar (approx, 1000 psi) Automatic Washers - refer to the manufacturers instructions, use at up to 500:1 end dilution. Manual Washing- Use at one quarter to half a litre of product to five litres of water depending on how dirty the vehicle is. Use with a soft cloth or sponge and rinse after washing.
