

CRYSTAL GRIP

Makes slippery floor surfaces safe

Crystal Grip is an invisible but highly effective tool in making floor surfaces safe and slip resistant.

What is Crystal Grip?

Safety is a priority in highly trafficked areas such as entranceways, kitchens changing rooms and hallways. Crystal Grip provides an effective, hardwearing and almost instant solution to slippery and dangerous floor surfaces such as tiles, marble, ceramic and glass mosaic.

How does Crystal Grip work?

Crystal Grip's revolutionary chemical gel formulation creates a microscopic crystalline structure within the top layer of the surface rather than on top of the surface. This means Crystal Grip can't peel off or be affected by water or humidity making it extremely hardwearing and safe in less than 30 minutes.

Key Features and Benefits of Crystal Grip?

Simple one-pack application.

Treatment complete in less than 30 minutes.

Totally invisible.

Odourless and solvent-free.

Use Crystal Grip on a range of surfaces such as ceramic, stone, marble, glass and more...

Perfect for use in kitchens, entrance halls, changing rooms and food storage areas.

Can be used on interior and exterior surfaces.

Chemically resistant.

Thermal shock resistant.

Technical Information

Shelf life: 2 years from purchase.
Resistant to: Water, oil, fats, greases, dilute acids and alkalis, petrol and diesel.

Temperature resistance: -40C to +200C.

Usage rate: Typically 172/ coat (2 coats required).

Treatment life: Up to 5 years.

Always ensure that precautionary measures found in the MSDS sheet for Crystal Grip are read and followed before use.
