# Great White Wipes

A super strong, absorbent and low lint dry wipe

**A super strong and absorbent dry wipe made from 70% wood pulp and 30% Polypropylene fibres that is fully recyclable.**

## What are Great White Wipes?

Great White Wipes are made from a blend of woodpulp and polypropylene fibres which creates a tough, durable and tear-resistant material capable of tackling the most challenging tasks.

The wipe will absorb four times its own mass and has a textured relief giving greater cleaning power.

With excellent tensile strength, Great White Wipes can be used both wet and dry and will not fall apart when in use.

Solvent and chemical resistant which means that Great White Wipes can be used across a wide range of applications getting jobs done quickly and efficiently.

Great White Wipes can even be rinsed and reused again and again.

Great White Wipes are low linting making them an excellent choice for cleaning glass and mirrors

The uniform size, consistent quality and performance are guaranteed, ensuring that optimum performance is delivered every time Great White Wipes are used.

Great White Wipes easily remove oil, grease and any other solvents and are ideal for cleaning tools and machinery as well as spills and drips.
