

RAPID RESPONSE SPILL KIT

General Purpose - for absorbing all liquids

What is the problem?

Spills and leaks of oil and water cause can cause contamination and damage to the surrounding areas, especially if it comes into contact with an electrical supply. If spillages are not dealt with quickly, the problems they generate then become very costly and time consuming.

What is a General Purpose Rapid Response Spill Kit?

This kit comes in an easy to carry bag which contains a range of absorbents to cover most run of the spillages. It is particularly effective when dealing with water based emergency's.

The absorbents in this kit are non selective. The absorbent contents of this kit are colour coded in GREY so that they are easily recognised as multi purpose.

The socks and pillows are made of a cellulose fibre which encase a specialised gel. This gel is able to soak up and lock in large quantities of liquid which makes for easy disposal.

Safety - The kit comes with gloves, overalls, goggles and mask to ensure that PPE is available for the operative.

Bags are provided for safe disposal of used absorbents, they also have a notification panel to indicate what contaminants have been absorbed.

Where can the General Purpose Spill Kit be used?

Apart from clearing any spillage we recommend using the kit for Dyking toilet areas, protecting drains, protecting soft furnishings when draining radiators, cleaning residuals from water and oil tanks, catching excess water when defrosting a freezer or dealing with air conditioning. Protecting sensitive areas like computer suites or electrical circuits from moisture ingress.

What is in the kit?

40 pads, 3 x 1.2 metre socks, 1 x 3 metre large sock, 1 large pillow, 1 small pillow, 1 complete PPE outfit and 3 disposal bags and ties, total absorbent capability of 73 litres.
