What are Barracuda wipes?

Barracuda is a strong, low-linting dry wipe. The wipe is a mix of wood-pulp and polyester making it smooth in texture so ideal for using on delicate surfaces and polishing. Barracuda also provides you with a strong versatile wipe that can be used with water based and solvent based cleaner.

Barracuda comes on a convenient roll allowing you to place it on a work top or carry it with you on a job.

We also supply a dispenser allowing you to place the wipes where they are required most.

Where can Barracuda be used?

- General wiping and cleaning
- Spill control
- Engineering
- Printers
- Manufacturing
- Automotive
