

# HAND WASH

## A POWERFUL BUT GENTLE EVERYDAY HAND WASH

### What is Hand Wash

Hand wash is an everyday hand wash that can be used in an engineering workshop or used out on site, Hand Wash is a powerful but gentle hand cleaner for everyday use. It contains a blend of gentle cleaning agents and emollients leaving your hands clean and fresh and feeling soft.

### How does Hand Wash work?

Hand Wash contains a lanolin derivative to replace the natural oils that are lost when washing your hands. Hand Wash also contains Glycerin that is good for the skin because it is a humectant a substance that attracts water and water is the best moisturizer. Hand Wash is free from abrasives and solvents, leaving your skin feeling clean and soft.

### Key features and benefits of Sass & Zest

- ✓ Will remove grease and dirt
- ✓ Contains emollients keeping your skin soft
- ✓ Suitable for frequent handwashing
- ✓ Fresh clean fragrance
- ✓ Free from abrasives
- ✓ Contains no solvents
- ✓ Can be used with or without water
- ✓ Will not dry or crack hands

### How to use Hand Wash?

One pump of the dispenser will supply enough soap for cleaning your hands, for a heavy-duty application you may require more.

Remove watches and rings as dirt and grime will gather around them.

Work the soap into a lather and rinse with water, if you are on site where water may not be available you can wipe the soap away with a soft cloth

### Health & Safety

Before use, it is important that you have read the Safety Data Sheet in its entirety and the appropriate PPE is worn during use.
