

# ReOdouriser

## Re-odourise problem areas with an amazing Tropical smell

### What is Tropical ReOdouriser?

Tropical ReOdouriser is an odour suppressor for use in the most extreme odour situations.

### How does Tropical ReOdouriser work?

Tropical ReOdouriser uses sensory blockers which stop unpleasant malodours registering when you breathe and adds a fabulous Tropical smell.

It is chemically safe to be used on a daily basis and is ideal for instant relief for temporary odour problems, as well as being powerful enough to deal with continuous issues like waste compactors.

### Key Features and Benefits of Tropical ReOdouriser

- Heavy-duty formulation absorbs bad odours and masks unpleasant smells instantly.
- Tropical fragrance absorbs malodours.
- Choice of use – neat, diluted in spray form or in fogging machines depending on severity of malodour.
- Suitable for all industrial and commercial premises including refuse areas, tanneries, offal dumps, septic tanks and compactors.

### Instructions for Use

Tropical ReOdouriser comes in a concentrated liquid form. Increase or reduce dilution rates to suit circumstances.

- General Re-odourising: dilute 1 part Tropical ReOdouriser to 80 parts water.
- Extreme Re-odourising: use Tropical ReOdouriser neat.
- Re-odourising with a fogging machine: dilute 1 part Tropical ReOdouriser with 10 parts water. Use for re-odourising large areas such as conference rooms.
- Re-odourising through large sprayers – dilute 1 part Tropical ReOdouriser with 10 parts water. Use for re-odourising wheelie bins, food waste bins, refuse areas and spillages.

### Health and Safety

Before use, it is important that you have read the Safety Data Sheet in its entirety and the appropriate PPE is worn during use.
