TECHNICAL DATA SHEET **RED RAG**

INDUSTRIAL MAINTENANCE GROUP

Red Rag Handwipes

The ultimate hand cleaning system

A major advance in hand cleaning technology. No rinsing, no drying, no residue, no soap. And absolutely no water needed.

What are Red Rag Handwipes?

Red Rag Handwipes are a unique waterless hand cleaning system, combining both a high quality liquid hand cleaner formula and a heavy duty, non-scratching but abrasive hand cleaning towel.

How do Red Rag Handwipes work?

Firstly Red Rag Handwipes dissolve surface and embedded oil, grease, grime. Then the contaminants are locked into the towel meaning that dirt is not spread about on the hands and the wipe can be used more than once. Finally the skin is conditioned with gentle emollients. In fact you can keep on using the same cloth for as long as there is still moisture in the cloth, leaving hands smelling clean, fresh and dry.

What can Red Rag Handwipes Remove?

Red Rag Handwipes can be used anywhere, anyplace, anytime, on the toughest soils, heavy greases, tar, graphite, lubricants, adhesives, mastics, paint, resins, wax, even printer inks and many other stubborn soils. Red Rag Handwipes can also be used to clean tools and equipment.

Key features and benefits of Red Rag Handwipes

- Saves time
- Saves money
- Improves productivity
- Increase efficiency
- Improves safety
- Improves the working environment.

Who can use Red Rag Handwipes?

Red Rag Handwipes are a must for everyone in the workplace or in the home. Can be used by mechanics, painters, printers, machinists, glaziers, plumbers, local government works departments, maintenance engineers, construction workers, service industry technicians, farmers, fishermen, miners, oil workers, cleaners, greenkeepers and DIY enthusiasts.

How to use Red Rag Handwipes?

Follow the instructions on the label
