

Pocket Sunshine Liquid

The liquid solution to melting snow and icy on any surface fast!

What is Pocket Sunshine Liquid?

Pocket Sunshine Liquid is a concentrated liquid solution which instantly gets to work melting snow and ice. When cold weather hits it can bring with it a range of hazardous and highly inconvenient issues, icy car parks, roads, driveways are all health and safety considerations which can cause hold-ups and loss of productivity. Pocket sunshine Liquid can be used on any pathway, external ground surface, and even your vehicle external windscreens, in the even the most extreme temperatures.

How Does Pocket Sunshine Liquid work?

The unique formulated solution thermally reacts to melt ice and snow in even the most extreme temperatures (can be used in temperatures as low as -40 °C). For use in environments that require an easily dispersible liquid solution to melt ice and snow.

How to get the best results?

Disperse liquid solution, either neat or diluted, across areas prone to become dangerous immediately when snow and poor weather is forecast.

If areas are already iced over, apply liberally. Re-apply every time there's a snow fall or build up if ice, to ensure the safest conditions.

Dilute the unique solution at the below rates, dependant on outside temperatures;

Key Features and Benefits

- Rapidly melts ice and now
- Use is temperatures as low as -40 °C
- Removal of snow and ice minimises delays and loss of productivity
- Use on an external surface
- Easily dispersible
- Diluted to the required rate, extends usage and lasts longer
- Long shelf life
- Can be used on external vehicle windscreens

Product information

Always ensure that precautionary measures found in the MSDS sheet for Pocket Sunshine Industrial are read and followed before use.

Temperature (°C)	-3	-7	-18	-40
Dilution Rate	10:1	1:5	1:1	Neat
