Power Jet De-Icer

Industrial strength de-icer for hard to reach areas.

An industrial strength, water free formulation, powerful de-icer spray for de-icing windscreens and locks at temperatures down to -15°C

What is Power Jet De-Icer?

Power Jet De-Icer is a revolutionary super powered de-icing spray which can extend to heights not achieved by regular de-icers. So windscreens on vans, HGV's and coaches are no longer out of reach.

It's water free industrial strength formulation means that you don't get the dreaded "re-freeze" after spraying.

How does Power Jet De-Icer work?

Power Jet De-Icer has a highly effective, powerful delivery system which can dispense industrial strength de-icer to surfaces which are hard to reach such as HGV, bus and coach windscreens as well as forcing frozen locks back into use.

Unlike conventional de-icers, Power Jet De-Icer has the power to remove hazardous ice even at extreme temperatures. (use Power Jet De-Icer at temperatures as low as -15°C)

Key features and benefits of Power Jet De-Icer?

- Innovative powerful delivery system ensures effective de-icing.
- Use even at extreme temperatures (-15°C).
- Water-free formulation.
- Ideal for use on coaches, buses, HGV's.
- Fantastic for de-icing locks

How to get the best results?

Remove any loose snow and ice build up.
Spray onto the frozen surface.
Repeat as necessary.
Apply a final coat to help prevent re-freezing.

Product Information

Always ensure that precautionary measures found in the MSDS sheet for Power Jet De-Icer are read and followed before use.
