4. FIRST AID MEASURES

4.1 Description of first aid measures

General advice: In all cases of doubt, or when symptoms persist, seek medical attention.

Eye contact: May cause irritation to eyes. Rinse immediately with plenty of water for 15 minutes holding the eyelids open. Seek medical attention if irritation or symptoms persist.

Inhalation: No undue effects in normal circumstances, if affected remove to fresh air and seek medical advice. Inhalation may cause coughing, tightness of the chest and irritation of the respiratory system. Move the exposed person to fresh air. Seek medical attention.

Skin contact: No significant hazard. Product is for use on skin. If irritation occurs, seek medical attention.

Ingestion: Unlikely due to the product's physical properties; if affected, rinse mouth with water and give water to drink. Ingestion may cause nausea and vomiting. Seek medical attention if irritation or symptoms persist. DO NOT induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed: May cause irritation to skin in sensitive individuals with prolonged contact.
