

REFILLABLE FOAMING DISPENSER

The Handiworks Refillable foaming dispenser is perfect for any workplace – warehouse, office, gym, shop, hospital, and supermarket – to ensure that safety hygiene measures are adhered to and that anyone can have access to sanitising points when needed.

Perfect for dispensing Virakill and Sani Gel onto hands – the refillable foaming dispenser will dispense the exact amount of sanitiser needed, via a push lever. Once dispensed, the dispenser will not drip, therefore reducing waste and the possibility of slip hazards.

Just one purchase of a Virakill or Sani Gel 5 litre tank fills the refillable dispenser 5 times, with each 1 litre fill lasting up to 1250 pumps.

Key features and benefits of Refillable Foaming Dispenser

- ✓ Made from high quality plastic – Acrylonitrile butadiene styrene (ABS) – long lasting and hard wearing.
- ✓ Stylish design.
