

# BREATHE EASY

## Your fogger in a can

A unique, multi-purpose air freshener, Anti-Viral, and Anti-bacterial spray perfect for sanitising any environment.

### What is Breathe Easy

BREATHE EASY is a unique sanitising and air freshening aerosol spray that kills harmful airborne viruses and bacteria. It's IMG's solution for a calm, proactive response to protect your workplace against the spread of disruptive, contagious illnesses without the need for expensive and time-consuming fogging machines. Our formulation meets EN 14476 & EN 13697 requirements, ensuring that you really can Breathe Easy.

The high volume discharge ensures maximum coverage and treatment, as well as leaving behind a fresh sanitary fragrance

### How does Breathe Easy work?

Breathe Easy rejuvenates spaces with a distinct clean fragrance to neutralise and capture malodours. Tested anti-viral and anti-bacterial properties ensures your space is decontaminated rapidly.

EN 14476 and EN 13697 tested to kill viruses in less than 1 minute with its high-volume discharge aerosol.

**Added benefits:** You'll be glad to know the surfaces that the spray lands on will also benefit from the anti-bacterial and anti-viral properties, giving you extra peace of mind.

### Key features and benefits of Breathe Easy

- ✓ Tested to EN 14476 and EN 13697 standards to kill bacteria and viruses
- ✓ High volume discharge aerosol
- ✓ Suitable for use in many environments including; offices, classrooms, meeting rooms, hallways, corridors, production facilities, changing rooms, restrooms and many more
- ✓ Internal and external use
- ✓ Easily transportable
- ✓ Safe to use in any environment including hard surfaces
- ✓ Cleans. Sanitises. Protects
- ✓ Subtle floral scent to re-odourise your environment

### How to use Breathe Easy

Simply spray several short bursts of the high discharge aerosol into each corner of the space and repeat as often as necessary. Leave for 5 -15 minutes and the treated space may then be reoccupied.

Coverage: 500 mL can is sufficient to treat an area around 75-115 m<sup>2</sup> (calculated on average ceiling height).
