

Sunshine Blast

The liquid solution to melting snow and ice on all surfaces

What is Sunshine Blast?

Sunshine blast is a unique liquid de-icer for ice and snow removal. Sunshine Blasts new liquid formula is non-toxic can be used on sensitive areas.

New Formula

Sunshine Blast has a low freezing point which helps with melting snow and ice. It's non-chloride formula prevents the usual rust and concrete issues of typical chloride-based salt ice melts. Prevents refreezing of thawed ice. Blue colouring will aid in identifying where you have previously sprayed to avoid wasting product! Sunshine Blast is environmentally and pet friendly.

How to get the best results?

Clear away excess snow, ice, and slush before applying.

Apply liberally to compacted ice and snow via sprayer.

Simply allow product to work. Reapply if necessary.
