

ANTI-SPAT 400

What is Anti-Spat 400?

Anti Spatter is a non-flammable, anti-adhesion safety product for use when using arc welding equipment. It prevents 'projections' sticking on to all treated surfaces. It is suitable for protecting nozzles, weld units and tools intended for arc-welding processes. It is Silicone free making it suitable for to use on surface to be painted after welding. Safe to use on most metals, including stainless and duplex steel. Avoid using on materials with high Magnesium or Zinc contents.

Key Features and Benefits of Anti-Spat 400

- Consult the safety data sheet prior to use.
- Prevents the adhesion of 'projections' on all treated surfaces.
- Suitable for protecting nozzles, weld units and tools.
- Shake can well before use.
- Apply directly, or using a brush onto parts to be treated (nozzles, units etc)
- Allow to dry for a few moments and proceed with welding.
- Surfaces can be cleaned with a white spirit type based solvent.
- Guaranteed for use up to 3 year after manufacture.

How to use:

1. Shake can well before use.
2. Spray straight onto works surfaces and surrounding area, brush and spread if necessary.
3. Spray directly onto welding equipment.

4. Allow to dry for a few minutes.

5. Begin your work with peace of mind.

6. Can be fully cleaned and removed afterwards with white spirit based solvent.

Pack Sizes

300ml (400ml total with pressurised Nitrogen) (65x157mm)
Boxes of 12

Physical Properties

- Appearance: Off white
- Propellant: Non-flammable gasses
- Flammability: Non-Flammable
