

Red Rag's Wipe & Seal

Resealable and Reusable Wet Wipes

Easy to use industrial wet wipes in a handy resealable pouch, for workers that are constantly on the move. No water, no soap, no mess, no fuss. This pack of wipes is a must have in every handyman's toolbox.

What Are Wipe & Seal?

Working in industrial settings is a messy business. Stickiness, spills, dirt, and all manner of messes get on your hands, tools, and surfaces. This is where industrial handwipes come into play, keeping everything clean and working at their best, including you the worker.

But these usually come in big tubs and buckets, mainly kept in one spot or cleaning station for ease of access. Are you expected to lug that around with you wherever you go? If you're needed here there and everywhere, so are your wipes! Not to worry, Red Rag has got you covered, with our new Wipe & Seal!

How Does Wipe & Seal Work?

Wipe & Seal is a resealable pack of industrial handwipes, made with the worker in mind to keep cleanup quick and easy, even for those who are on the go. There are three main components which all combine to give you the premier cleaning solution.

The wipe material is an abrasive scrub, but don't let the name fool you! This fabric has been expertly designed to be able to tackle the toughest stains with grit and vigor, but is also smooth enough to cause absolutely no damage or scratches. It targets messes and lets you get stuck in.

Wipe & Seal's solution is a master of all trades when it comes to eliminating those industrial messes. Its well-versed formula is solvent and harmful chemical free, and is proven to break down and help remove dirt, oils, greases, wet paints, adhesives, varnishes and much more. This combined with the fabric means this product is safe for use on your hands, tools and work surfaces.

These are enclosed in a small and handy packet, which is perfect for workers who are constantly on the move. The pack also has a resealable top, so you can keep the wipes dry and working at their best for much longer. Small, sealed, and strong enough to fit nicely in a toolbox or bag, the Wipe & Seal becomes any worker's best friend.
