

OIL DRI GRANULES

Quick to act granules for any type of spill

Spill control

Non-hazardous and quick acting method of dealing with spills, be they of oil, chemical or most other types of liquid.

What are Oil Dri Granules?

Oil Dri Granules are a worker's best friend when it comes to managing spills. These industrial-grade, multi-purpose absorbents are crafted from 100% Sepiolite minerals. Designed with user convenience in mind, these granules are easy to apply, act instantly, and make clean-up significantly safer. Their formula includes built-in chemical resistance, ensuring no granular breakdown occurs, regardless of the substance being absorbed.

How do Oil Dri Granules work?

Simply sprinkle or pour them over the spill area, or where the spill is occurring, and let them get to work. These organic clay-based granules are designed to absorb oil, chemicals, and most other liquid-based spillages. They can be used anywhere and will leave your floors clean, dry, and safe. Once the work is done, just sweep them up and dispose of them according to the type of spill.

Key Features and Benefits:

- Simple to apply, easy to clean.
- Instantly get to work.
- Natural and eco-friendly product.
- Safe method of spill control.
- Granules are non-toxic, safe for use anywhere.
- Fireproof formula. Added protection where care is needed.
- Reduces slip hazards.
- Can be applied to already damp surfaces.
- Can absorb most liquids (Oil, Fuel, Chemical, Greases, and more...).
- Non-abrasive or damaging to surfaces.
- Infinite shelf life, use some now and store the rest for later.

Who should have these?

- Any industry that can experience liquid spills.
- Businesses working indoors or outdoors.
- Warehouses with fuelled vehicles or machinery.
- Oil refineries or petrol stations.
- So much more...
